

Embedding Options

Display-Format

Interactive Viewer

The interactive viewer provides zooming and panning the diagram.

Show Toolbar

Adds a toolbar at the top of the diagram. The toolbar provides buttons to center the diagram and to reset the zoom to 1:1.

Display Tooltips

In case a description was added to a node in the Graphity Editor, it can be displayed as a tooltip when hovering the node.

Enable Links

In case a link was added to a node in the Graphity Editor, it is possible to navigate to this like by clicking the node.

Static Image

The diagram is embedded as a common SVG image. There is no interaction.

[illegible]

Size

The size of an embedded diagram is either determined automatically considering the original size and aspect ratio or can be specified in pixels or percentage.

Automatic

400px x 300px

Alignment

Left, Right, Center

There are different alignments for an embedded diagram. It can be displayed in the left, middle, or right of the Confluence page.

Left

Center

The diagram can also be surrounded by text.
